

IOP | journal archive 1874-1993

Over a century of physics
at your fingertips

The essential foundation for the future of physics.

The Institute of Physics has comprehensively digitized its journal archive back to 1874. The archive consists of fully searchable PDFs with linked references. High resolution scanning ensures excellent readability of text, data and tables.

The Institute publishes some of the most significant journals in the physical sciences. The availability of the archive offers an essential foundation of knowledge for researchers.

Access to all content older than ten years is available for subscription or purchase. In 2004, this covers the period 1874–1993. Content from the most recent ten years continues to be included with your current subscription.

Adding the IOP Journal Archive to your collection

Subscription

As an IOP current subscriber you can add the archive to your collection for only \$690/£470* for an annual subscription. The data is accessed via the IOP Web site, enabling you and your users to enjoy the full features and services associated with our award-winning Electronic Journals service. Your annual subscription includes full text of all IOP journals in the archive, plus linked HTML references via the IOP Web server.

Purchase

You can also purchase the archive for a one-time fee and add it permanently to your digital library. Please contact your IOP regional representative for more information. You can see a full list of regional representatives at www.iop.org/EJ/enquiries.

The IOP Journal Archive provides an indispensable resource for the physics community and ensures your institution has access to:

- Over 500 volume-years of journals
- Over 100,000 articles
- Over 1.5 million pages of scientific research

Subscribe today! Please see overleaf for more information.
