

# IOP | journal archive 1874-1994

Over a century of physics  
at your fingertips

## The essential foundation for the future of physics.

The Institute of Physics has comprehensively digitized its journal archive back to 1874.

The Institute publishes some of the most significant journals in the physical sciences. The archive offers an essential foundation of knowledge for researchers, representing 130 years of high-quality science from the best authors in their fields.

## Adding the IOP Journal Archive to your collection

---

The archive consists of fully searchable PDFs with linked references. High resolution scanning ensures excellent readability of text, data and tables. Access to all content older than ten years is available for subscription or purchase. In 2005, this covers the period 1874–1994. Content from the most recent ten years continues to be included with your current subscriptions.

### Subscription

As an IOP current subscriber you can add the archive to your collection for only \$825/£588\* for an annual subscription. The data is accessed via the IOP Web site, enabling you and your users to enjoy the full features and services associated with our award-winning Electronic Journals service. Your annual subscription includes full text of all IOP journals in the archive, plus linked HTML references via the IOP web server.

### Purchase

You can also purchase the archive for a one-time fee and add it permanently to your digital library. Please contact your IOP regional representative for more information. You can see a full list of regional representatives at [www.iop.org/EJ/enquiries](http://www.iop.org/EJ/enquiries).

The IOP Journal Archive provides an indispensable resource for the physics community and ensures your institution has access to:

- Over 500 volume-years of journals
- Over 110,000 articles
- Over 1.5 million pages of scientific research

## Recommend the IOP Journal Archive

*(Pass this form to your librarian to recommend that your institution subscribe)*

I recommend that we subscribe to the IOP Journal Archive in 2005, for the following reasons:

- I will need to refer to the archive for my work regularly  
 I will be referring my students to this service

## Purchase the IOP Journal Archive

When you purchase the archive for a one-time fee, you can either load the content locally or have permanent access rights to view the data through the IOP web server. Local loading enables you to fully integrate the archive into databases held in your institution so that it truly becomes part of your collection.

Please contact your IOP regional representative for a quotation or e-mail us at:

**info@ioppubusa.com** (for customers in USA, Canada, Mexico and Central and South America), or  
**tony.o'rourke@iop.org** (for customers in Europe and the rest of the world).

\* The subscription price and update price will be subject to annual increases.

\*\* All EU subscribers, with the exception of UK subscribers, are exempt from Value Added Tax (VAT) if they provide their VAT/TVA/Mwst, etc number when placing an order. EU subscribers outside the UK not providing their VAT/TVA/Mwst, etc number will be subject to VAT at the prevailing UK rate.

Please Note:

The full licensing conditions for purchasing the archive as a permanent acquisition are available. Please ask your local representative for a copy of the licence.
