SURFACE, INTERFACE AND ATOMIC-SCALE SCIENCE FAST TRACK COMMUNICATION

052001 Changes in the adsorbate dipole layer with changing d-filling of the metal (II) (Co, Ni, Cu) phthalocyanines on Au(111)
Jie Xiao and Peter A Dowben

SURFACE, INTERFACE AND ATOMIC-SCALE SCIENCE TOPICAL REVIEW

053001 Spectroscopic manifestations of the Kondo effect on single adatoms
Markus Ternes, Andreas J Heinrich and Wolf-Dieter Schneider

SURFACE, INTERFACE AND ATOMIC-SCALE SCIENCE PAPERS

055001 Electronic structure of Sn/Cu(100)-2√2×2/[2√2]\times [2√2]
J Martínez-Blanco, V Joco, J Fujii, P Segovia and E G Michel

055002 Half-metallicity at the Heusler alloy Cu4Cr5Fe5(Al(001) surface and its interface with GaAs(001)
Sareh Zarei, S Javad Hashemifar, Hadi Akbarzadeh and Zohre Hafari

055003 Enhancing the hardness of Al/W nanostructured coatings
F A Burgmann, D G McCulloch, L Ryves, S H N Lim, D R McKenzie and M M M Bilik

055004 Role of hydrogen adsorption on the carbon terminated β-SiC(100)-c(2×2) surface structure: a theoretical approach
Alcemira Conceição Oliveira, F Brito Mota and Caio M C de Castilho

055005 Palladium interaction with CeO2, Sn–Ce–O and Ga–Ce–O layers
T Skala, F Štutara, M Škoda, K C Prince and V Matolin

055006 Furan interaction with the Si(001)-(2×2) surface: structural, energetics, and vibrational spectra from first-principles
R Miotto and ACFerraz

055007 Final state interaction observed in M2VV Auger profile of Cu(110)
H Nakajima, MBuddhakala, S Chumpolkulwong, P Songsiririthgil and A Kakizaki

055008 How does an external electrical field affect adsorption patterns of thiol and thiolate on the gold substrate?
Jian-Ge Zhou and Quinton L Williams

055009 Adsorption sites on icosahedral quasicrystal surfaces: dark stars and white flowers
Surendra Singh and Saibal Basu

055010 Separation and correlation of structural and magnetic roughness in a Ni thin film by polarized off-specular neutron reflectometry
Lobato, J Rojas, C V Landau and J Torres

PAPERS

NANOSTRUCTURES AND NANOELECTRONICS

055301 Atomic and electronic structure transformations of silver nanoparticles under rapid cooling conditions
I Lobato, J Rojas, C V Landau and J Torres

SOLID STRUCTURE AND LATTICE DYNAMICS

055401 Quantum mechanics–molecular dynamics approach to the interpretation of x-ray absorption spectra
A Kuzmin and R A Evarestov

055402 Universality in the vibrational spectra of weakly-disordered two-dimensional clusters
Gurpreet S Matharoo
